## Compliance in Western Canada Just Got Easier

Mississauga, ON --- July 14, 2008 --- ICC The Compliance Center announced today that it is expanding operations into western Canada. The company will have an office in Edmonton, Alberta Canada which will be open for business Sept 2, 2008, to serve western provinces. In addition to transportation safety supplies, the Edmonton office will conduct training courses on topics such as shipping dangerous goods by ground, air, and WHMIS regulations.

“This is an excellent opportunity for us to establish new – and maintain long-term – relationships with our western client base. Our proximity to western clients enables them to take advantage of faster delivery times and reduce costly freight charges,” remarks senior business development manager Greg Monette. With more than 10 years at ICC The Compliance Center, Greg Monette will be headed westward in support of the company’s expansion plan.

When asked his opinion, general manager John Munro exclaims, “We are headed towards an exciting direction in the future of this company. The dedication of our staff has yielded advancements and improvements in many areas. This expansion is the culmination of their hard work, trust and confidence in the company and its endeavours.” A special thank you goes out to all customers, whose trust and confidence in the company has made this expansion a reality.

ICC The Compliance Center specializes in hazardous materials/dangerous goods transportation, health and safety consulting, plus label printing for chemical, paint and coatings, automotive, and many more industries. It offers a wide range of transportation accessories and supplies, along with regulatory services. Contact the friendly customer relations center at 888-977-4834 or speak with a business development manager today. Staying in compliance is only a phone call away.
